Designs of Studio M embody the cornerstones of Scandinavian design; timelessness, clean lines and effortless elegance.

## Nature inspired

Studio M creates fine porcelain jewellery inspired by Finnish nature.

Casual yet elegant the pieces are effortless and easy to wear.

## Sustainable

All pieces are handcrafted from very durable high fire porcelain, some pieces being adorned with 14k gold details.

Pendants come with a Sterling silver chain or a genuine leather strap.

## Unique designs

Studio M jewellery are like wearable mini sculptures, all unique with their natural variations.

# Word from the designer

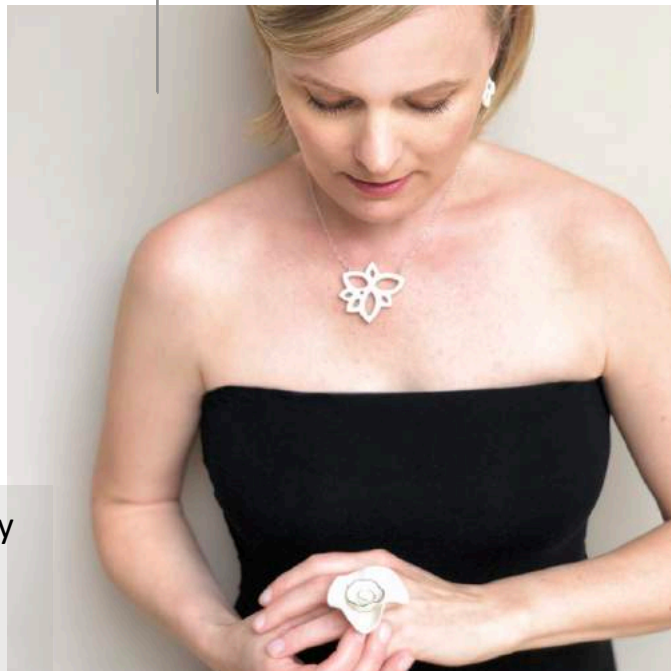

To emphasize the natural beauty and smoothness of porcelain I keep most of my jewellery unglazed.

In my designs like to play with contrasts – rough and smooth, shiny and matte, familiar and unexpected.

To highlight the elegance of fine porcelain jewelry I adorn some of my pieces with 14k gold.

I recommend handling my jewellery similarly to pearls or crystal jewelry:

- While porcelain is a very durable and strong material it can break or chip if it falls on a tile floor.
- Remove the jewellery during gym work-out, gardening or other situations that may expose it to brutal hits.
- Avoid swimming in chlorine treated water with the jewellery as well as spraying perfume on it.
- You can wash the jewellery in mild soap water if needed.
- Store the jewellery in its own pouch.
